

## **EXPLANATION OF SYNAPSE TREATMENTS AND THERAPIES**

### **WELLNESS CREDITS**

#### **What are Wellness Credits?**

During your Report of Findings (ROF) appointment, we will give you a proposed treatment plan. This treatment plan will include the cost of each recommended therapy and nutritional supplementation. Along with your treatment plan you will receive a Financial Plan, which offers an option for full payment of your plan or monthly payment installments.

Based on the payment plan you choose, you may qualify for Wellness Credits. Paying your balance in full will result in more Wellness Credits than paying monthly. The number of Wellness Credits you can expect to receive will be listed on your Financial Plan. Wellness Credits are a percentage of money for you to use at the end of your plan.

#### **When can I use my Wellness Credits?**

Upon completion of your treatment plan, you are welcome to use your Wellness Credits. This will be a pre-determined amount of money that can be applied to any service at SYNAPSE, such as massage therapy, FSM, chiropractic adjustments, colon hydrotherapy, etc. Please note: Wellness Credits cannot be used to purchase nutrition or lab tests, cannot be applied towards your outstanding balance nor reimbursed as cash.

#### **Can I transfer my Wellness Credits to another patient?**

Yes! You are welcome to transfer your Wellness Credits to a friend or family member being treated at SYNAPSE. According to federal regulations, all Medicare patients are excluded from receiving and using Wellness Credits
